LIVE THE LITURGY - INSPIRATION FOR THE WEEK

St. Josemaria Escriva tell us, "To live according to the Holy Spirit means to live by faith and hope and charity. To allow God to take possession of our lives and to change our hearts, to make us resemble him more and more." Today we celebrate the gift of the Holy Spirit given freely by God to us. The Holy Spirit is the very breath of God and the true source of our power and strength. When we accept that God is the beginning and the end of all things, we open ourselves to receiving this powerful presence. The Holy Spirit alone is the one who teaches us how to pray, who stirs us to lift our eyes to heaven in search of our Creator and opens them to recognize the wonderful gifts of faith, hope, and love God gives us. The Holy Spirit is the one who teaches us how to understand ourselves, God, others, and the world. When we allow God's Own breath to truly take possession of us, we realize that we are meant to become like God and know Him as He really is. This ultimate helper lifts our eyes from what is below to what is above and empowers us to live life with joy and keener vision.

Building & Grounds Report

Building and Grounds Report: Sisters and Brothers, our Building & Grounds Committee and Finance Council Members, continue to discern the best ways forward with our various building's improvements and maintenance projects.

New Church Doors: We continue to sort out the new hardware and locks etc., but most of all, we are keeping a keen eye on any moisture problems. We agreed at our Town Hall that if any water issues continue to be a problem, then we will have to explore some sort of covering in the front of our church. In addition, the manufactures of the doors, remind us that they recommend a covering.

New Church Steps: As you may have noticed, we now have issues with our front steps into the church. Dale has engineered a temporary fix, which is perfectly safe and sound for the time being. Once we know how the new doors are doing with the water issues, we will have a better idea of how to correct the steps.

Water in the Church Lower Level: The basement of our church has always been damp and always will be. It will not ever be bone dry. However, there is a current issue that is concerning. There is more water than there has ever been, so much so, that we have standing water in some places. We are seeking out the counsel from a few professional companies who specialize in foundations and water issues. More information to follow.

The Two Parking Lots: Plans are underway to blacktop the small parking lot behind the rectory, and to level and pour concrete in the large parking lot next to the parish center. Let us hold all of these efforts in prayer. Fr. Matt
